03:00 on Sat 13 Nov 2021	5.8mm	9.8mm	16mm

Forecast for Sunday 14 Nov 2021

Weather: Clear spells overnight, with valley mist and fog forming, joined after dawn by an area of mist and low cloud arriving from the east and spreading across most or all of the Brecon Beacons by mid-morning. Through the afternoon the low cloud, mist and any residual valley fog will lift and break up, allowing some sunny spells to develop and then clear spells through the evening.

Maximum wind: Northeasterly 10-15mph.

Chance of cloud free mountain/hill tops above 600m: 80%, decreasing 20% after dawn and until mid-afternoon. Then improving 80%.

Visibility: Good or very good with height initially, and becoming moderate or poor in the valleys. Through the morning becoming generally moderate or poor, with widespread hill fog developing for most elevations, bringing hazardous conditions with only very limited visibility. Though the afternoon improving to good visibility, with distant hills seen.

Temperature: **Valleys:** Plus 5 rising to 10 Celsius.
At 600m: Plus 6 Celsius.
Freezing level: above the summits.
